Nutritional Supplements & Cosmetics

PLANTAPOL, S.L., was born in 1982 offering natural products beneficial to health.

A long way until today, where the knowledge of the needs of the market and of our clients allows us to occupy an optimal position. Our positioning speaks of high quality, competitive prices, knowledge of laboratory processes, formulation, development, respect for the environment and rigorous quality control, which in short, translates to healthy products, designed by and for the end customer. .

We develop dietetic, cosmetic, sports and spa products and ranges, both domestically and in markets in Europe, America, the Middle East and Africa.

Our R + D + I, Laboratory, Marketing, Design and Training departments, together with our modern infrastructures in our three production plants in Zaragoza and Barcelona, allow us to offer the flexibility and variety that our clients demand.

We have the collaboration of renowned health professionals who investigate, analyze and prescribe our products in search of synergies for the end consumer.

At Plantapol we listen to demanding people, concerned about nature, who demand healthy and natural products.

Our vision: A sustainable and healthy future.
